“ I worked with Andy for over 40 years. I haven't met his family in all those years. That sounds impossible but I could tell you everything they ever did. All the trips, all the sports, everything. Andy was 100 percent family. Andy made my 40 years a comedy. Our enormous warehouse inside and out was his gym. He could just drop and do push-ups or squats on a bucket of ink. On breaks I would run the fields out back and he would be out practicing his golf swing trying to hit me with golf balls. We both enjoyed talking about surfing because we weren't any good at it. Andy was our union steward and fought so hard to give me the respectable pension I have now for my family. I have seen all the photos of his life, his family. Drew, there is only one other father son love that equals yours. Your Dad is hanging out with them both for eternity.

“ Too many to post..... Andy used to teach us how to box. But i think one our most funniest and greatest memory was when we were in the field driving around in a car smashing into trees and my brother Scott was driving and was gonna smash into a tree an I tried to climb out and he hit the tree and I hit the window frame..... Andy was videoing it and we were gonna send it in to America's Funniest Videos cause all you saw was rhe camera all.over the place and him laughing..... Had alot of great times with you Andy and I will miss you Thank you for always treating us like we were one of your own..... I never told you but I loved you.....RIP
