“ I am shocked and saddened to learn of Dan’s passing. Dan and I met in 2009, after Honeywell bought Handheld Products and Metrologic. As they were merged into one, Dan and I spent a lot of time together on various facility and HSE projects. Dan was very intelligent and could Google and find any and everything. We both had different expertises and would support and back each other up in the jobs that we held. Little did we know we would become friends as well as coworkers. I am happy to have had the pleasure of getting to know Dan.

I miss you my friend. May you rest in peace for all eternity.

“ Dan was one of the smartest dudes I hung and grew up with.. Knew him since grade school growing up in Oak Valley.. All the Dead End Parties.. Even though we lost touch after College, the news of his passing so young breaks my heart.. Rest in Peace My brother.

“ *John 11:25-26*

"Jesus said to her, 'I am the resurrection and the life. Those who believe in me, even though they die, will live, and everyone who lives and believes in me will never die.' "

Rest in Peace my friend...you will be missed. I'll be an Eagles fan for a day in your stead.

“ *I met Dan the day both of us interviewed for FT positions at Metrologic, must be close to 25 years ago now. He turned into a good friend of mine over all the years. He was a no-nonsense worker, but oh he loved to have fun while doing so. He also had a particular sense of humor- if you got it you got it. I had a lot of fun with Dan in and out of work. He was a friend to me until the end. Both my wife and I will really miss Dan.*

“ Dan will be missed... he was one of the kindest people I have known. He and I worked virtually many long hours at Honeywell during COVID. I don't know what I would have done without him. Rest in Peace my friend.

“ Dan is highly respected leader when we worked together in Honeywell, he communicated and managed safety message and actions so well, he is always there for you to learn new processes and tools and provide you helps..., I always wonder why he knew so much, and today I learn he got 3 different degrees.... he keep learning to be excellent.
Dan will be missed forever!!! RIP!!!
