“ *Our deepest sympathies to the Bohn family. Those of us at Marshall that worked with Terry have great memories, funny stories, and there are still some of his pencil cartoon drawings around here. Marshall Ind. Tech.*

“ *His height, size and booming voice, belied the tender, generous and playful heart that we ALL knew Uncle Terry to be. I've never known anyone that could laugh his way through more accidents and misfortune than anyone I have ever known. He was always up for a good prank and loved his children and grand children with just as much gusto. May we all draw close to Jehovah and hold tight each other as we await the day that we can welcome back all those who have fallen asleep in death, to a paradise earth. Until that day he will be truly missed.*
